ACADEMIC PROJECTS

Review project

- **JARVIS AI**
  - ➤ Jarvis AI Model :Developed an AI tool, "Jarvis," designed to assist users with daily tasks and answer questions requiring critical thinking and logical reasoning.

- **RESTAURANT MANAGEMENT SYSTEM**
  - ➤ Developed a restaurant management software, emulating a McDonald's-style ordering system, that enables users to select food and beverage items

- **Property Management Software**
  - ➤ Designed and developed a comprehensive software solution/mobile application to assist individuals in efficiently managing their rental properties. This system provides real-time updates on rent payment statuses, clearly identifying paid and pending accounts.
